**A car
for business
without the
hassle of
owning
one**

Take control of your company's car travel today

Car sharing in urban areas is an alternative to owning your own car. It allows people access to a car when they need it, from a place near their home or workplace. The car can be used for short trips lasting as little as an hour or booked for a few days. You only pay for the hours you keep the car and the distance you drive.

Car Sharing cars are...

- Fuel efficient, less than three years old, regularly checked, serviced, and valeted by trained staff.
- Conveniently located, on-street or off-street, in designated parking bays near to where you work.
- Easily booked by your staff on the internet, or even by phone.

The Car Sharing operator...

- Does all the administration.
- Insures and taxes the cars.
- Maintains the cars, takes care of any problems, and saves you the hassle.

The Car Sharing solution

- No more problems finding a parking space.
- Stop paying a fortune for car parking.
- Forget about the paperwork (company car scheme, staff car expense claims, or the car pool).
- Reduce car-related tax liabilities.

Flexible benefits

- Pay-as-you-drive economy. You only pay for the time the car is booked and the distance you drive (fuel costs are included).
- Flexible car use. Book the car for as little as one hour.
- A single itemised bill for all your firm's car use. Keep control of your costs.

Access to a car without the hassle of owning one
